Marine Micropaleontology, 14 (1989) 375
Elsevier Science Publishers B.V., Amsterdam — Printed in The Netherlands

Contents Volume 14, 1989

Editorial
B.U. Haq (Washington, U.S.A.) 1
Application of the graphic correlation method to Pliocene marine sequences
H.J. Dowsett (Reston, U.S.A.) 3
Pliocene–Pleistocene radiolarian events and magnetostratigraphic calibrations for the tropical Indian Ocean
D.A. Johnson (Woods Hole, U.S.A.), D.A. Schneider (Palisades, U.S.A.), C.A. Nigrini (La Habra Heights, U.S.A.), J.P. Caulet (Paris, France) and D.V. Kent (Palisades, U.S.A.) 33
Plio–Pleistocene calcareous plankton biochronology
S.J. Hills and H.R. Thierstein (Zürich, Switserland) 67
Quantitative analysis of Quaternary nannoplankton in the subtropical northwestern Pacific Ocean
H. Matsuoka (Kanazawa, Japan) and H. Okada (Yamagata, Japan) 97
Paleogene calcareous nannofossil magnetobiochronology: results from South Atlantic DSDP Site 516
W. Wei and S.W. Wise Jr. (Tallahassee, U.S.A.) 119
Calcareous nannofossil zonation of the Jurassic–Cretaceous boundary interval and correlation with the geomagnetic polority timescale
T.J Bralower (Miami, U.S.A.), S. Monechi (Firenze, Italy) and H.R. Thierstein (Zürich, Switserland) 153
Middle Tertiary calcareous nannofossils from Aire district, Victoria; a comparison with equivalent assemblages in South Auistralia and New Zealand
D.B. Waghorn (Parkville, Australia) 237
Experimental and observational studies of radiolarian physiological ecology: 1. Growth, abundance and opal productivity of the spongiose radiolarian *Spongaster tetras tetras*
O.R. Anderson, P. Bennett and M. Bryan (Palisades, NY, U.S.A.) 257
Experimental and observational studies of radiolarian physiological ecology: 2. Trophic activity and symbiont primary productivity of *Spongaster tetras tetras* with comparative data on predatory activity of some nNassellarida
O.R. Anderson, P. Bennett, D. Angel and M. Bryan (Palisades, NY, U.S.A.) 267
Experimental and observational studies of radiolarian physiological ecology: 3. Effects of temperature, salinity and light intensity on the growth and survival of *Spongaster tetras tetras* maintained in laboratory culture
O.R. Anderson, P. Bennet and M. Bryan (Palisades, NY, U.S.A.) 275
Paleocene – Pleistocene benthic foraminiferal evidence of major paleoceanographic events in the eastern South Atlantic (DSDP Site 525, Walvis Ridge)
E. Boltovskoy and D. Boltovskoy (Buenos Aires, Argentina) 283
Bioturbation and sedimentation rate control of benthic microfossil taxon abundances in surface sediments: a theoretical approach to the analysis of species microhabitats
P. Loubere (DeKalb, IL, U.S.A.) 317
Calcareous nannofossil assemblages from the Brendola section (Priabonian stage stratotype area, northern Italy)
V. Barnin (Paris, France) 327
Early Late Pliocene biochronology and surface water temperature variations in the Mediterranean
W.J. Zachariasse, J.D.A. Zijderveld, C.G. Langereis, F.J. Hilgen and P.J.J.M. Verhallen (Utrecht, The Netherlands) 339
Atlantic Paleogene planktonic foraminiferal bioprovincial indices
I. Premoli Silva (Milano, Italy) and A. Boersma (Stony Point, NY, U.S.A.) 357
Book Review 373
